1. **Purpose**

It is the policy of the university to provide equal opportunity with respect to all employment practices, including employment testing. The guidelines for the use of employment tests for staff positions were developed to comply with the Virginia Department of Human Resource Management, Policy 2.10, Hiring (http://www.dhrm.virginia.gov/docs/default-source/hrpolicy/pol2_10hiring.pdf?sfvrsn=2), and with *The Americans with Disabilities Act*.

2. **Policy**

Any employment testing conducted by the university should be consistent with applicable federal guidelines concerning the use of employee selection procedures. The administration or use of any test, skill demonstration, or work example for the purposes of making employment decisions in the hiring of staff employees must be approved by Human Resources.

2.1 **General Testing**

With prior approval by Human Resources, applicants may be asked to demonstrate job-related skills or provide work examples to assist hiring supervisors in their evaluation of candidates' qualifications. All similarly qualified applicants for a position must be given the same opportunity. The appropriate use of work examples or skill demonstrations will be determined by the hiring supervisor in consultation with Human Resources and must be job-related and supported by the position description.

3. **Procedures**

Any test, work example, or skill demonstration must be administered to the candidates in a consistent manner. This means that similarly qualified candidates for a vacancy are provided the same opportunity, receive the same instructions, are tested in the same way, and are evaluated by the same criteria. However, an individual who has a known disability, which prevents them from taking the test or performing the skill demonstration, may request an accommodation. Reasonable accommodations may include, but are not limited to, use of adaptive equipment or aids, modification of the methods for providing instructions, or substitution of another method for evaluating the abilities, skills, or knowledge. Hiring supervisors who know of an applicant's disability or who receive requests for accommodation in testing or skill demonstrations should contact Human Resources for assistance.

Writing samples, audition tapes or videos, or other work examples that will be used to assist in screening must be requested of all similarly qualified candidates at the same stage in the employment process. Objective criteria for evaluating work examples and performance demonstrations must be established prior to their use and reviewed by
Human Resources. The criteria and the candidate evaluations must be included in the documentation of the selection process.

4. Definitions

Tests - Administered exercises with objective criteria used to establish performance levels or capabilities.

Work Example - an example of work capability as indicated by previously completed work assignments; including writing samples, audition tapes or videos, or other samples of work.

Skill or Ability Demonstration - Performance of a required job skill or ability such as equipment operation, writing, video production, etc., during the screening or interviewing phase of the employment process.
