

# Requirement of Final Examination for All Master's Programs

## Policy Memorandum No. 9c

Recommended by Commission on Graduate Studies and Research, December 12, 1978

Approved by University Council: January 15, 1979

Approved by President: January 15, 1979

Effective: First Summer Term of 1979 for those graduate students beginning their Master's programs

The Commission on Graduate Studies and Research approved a recommendation that an "oral and/or written final examination will be required for all Master's programs without exception." Under current policy, some exceptions have been allowed to the general policy of requiring final examinations in Master's programs, and the purpose of this recommended change is to eliminate the exceptions. I am pleased to approve the change herewith.
